

# Company Profile

**SAS CORPORATION**

# About SAS Corporation

---

The company was set up in 1977 as an off-shoot of Jawed Engineering Company (Pvt) Limited, Pakistan's leading manufacturer of pumps for almost 6 decades.

It gradually grew up into an independent trading house and emerged as a major player amongst other such companies in the country. Yet it exists with a difference, since it was evolved around a nucleus of technically qualified manpower with the vision and dedication to achieve customer satisfaction through knowledge, hard work and service.

Major products handled are electric generators, pumps-all types, air compressors, petro-service equipment and other allied items.

Today the company's sales & marketing efforts are supported by:

- i. Foreign & locally qualified engineers.
- ii. A team of 60 technicians which carries out installation/commissioning and maintenance work all over the country
- iii. A fully equipped service centre spread over 45,000 sq.ft of covered area.
- iv. Stocks of a large range of our major products
- v. Spare parts to cover warranties, repairs & service
- vi. Associate companies in Singapore, and USA.

Make us a partner in your problems. We will meet your requirements of today & tomorrow, to your total satisfaction.

No wonder our clients call us *the satisfaction company*. Why not give us a chance! We are only a phone call away.

# Foreign Principals

**AIR COMPRESSORS:**

	<ul style="list-style-type: none"> <li>• Commercial/Industrial Compressors</li> <li>• Dry Pipe Sprinkler Compressors</li> </ul>
---	---

	<ul style="list-style-type: none"> <li>• Air Compressors</li> <li>• Air Tools</li> <li>• Accessories</li> </ul>
---	---

**AVIATION REFUELLERS:**

	<ul style="list-style-type: none"> <li>• Aviation Refueling Equipment</li> <li>• Volumetric Prover, Hydrant Servicer</li> <li>• Jet Storage &amp; Pumping, AVGAS System</li> <li>• In-Stock Refueler Program</li> </ul>
---	---

**GENERATORS:**

	<ul style="list-style-type: none"> <li>• Diesel Electric Generators</li> <li>• Gas Electric Generators</li> </ul>
---	---

	<ul style="list-style-type: none"> <li>• Diesel, Gas, LPG &amp; Electric Generators</li> </ul>
